FRIDAY OCTOBER 31, 1908

Get in line for the rally Monday night.

Cathcart is elected, but what of the straight Republican ticket?

No response has been made to the challenge to come into court.

Every grafter will vote with the Republican traitors. Don't vote with the traitors.

A few libel suits more or less do not bother the "moralists." Yes? No? Guess again.

It's a great time they will be having in the Republican camp on Tuesday night the next.

According to those best able to judge, a vote for Carlos Long is a vote for Goo Wan Hoy and Humphreys.

Every time Carl Smith has battled in he has recalled the Darwinian theory that man is descended from the monkey.

If you would become acquainted with the Republican candidates for office on this island, read the Saturday Bulletin.

Taft as President, Kibbe for Delegate, and Lane for Mayor of Honolulu. That is a sure combination of leaders to draw to on election day.

The next Congress will be Republican, and Kibbe must be there from Hawaii whether Uncle Joe conquers the Methodists of his district or not.

Another invitation has been issued for the defamation bureau to come into court, and still its representatives delay. Is it fear of contempt?

Dealin and Holstein send great news from Hawaii County. Do your part to make the City and County of Honolulu return more of the same thing.

Every man and woman who has lost money in Kibbe will view the record of Cathcart as spotless, when compared with that of his chief antagonists.

Republican enemies having bolstered their attacks on falsehood, would naturally not hesitate to utter a few more each day in order to cheer their own hearts.

Now that suffragettes have been sent to jail the martyr list of woman's suffrage has been started and the "cause" is consequently on the road to victory.

Some men say that enthusiasm and crowds don't forecast election-day results. Some men don't know, and therefore foolishly predict poor prospects in Republican circles.

J. P. Cooke's exposure of their plan to knife the ticket throughout is the saddest blow the enemies of the Republican party have received. It shows their true character.

It is not probable that the Republican runners are reporting exclusively to the enemies of the party. The word of the latter may be discounted at about one hundred percent.

McCandless hasn't explained to which wing of his following he will present the forty-six fertile acres of Necker Island which he includes in the detail of his public land to be given away.

The outcome of the Presidential fight is so certain that already Bryan's opponents can safely extend their congratulations on the excellent fight he has made, and regret that he should again suffer his regular disappointment.

Even secret societies make public their membership roll. Only the Civic Federation finds it necessary to work in the dark and keep the membership under lock and key. Which shows that the Civic Federation committee is guided by folly and overwhelmed with fear.

WHAT OF YOUR VOTE?

And what are you here for, gentlemen?

Is the main purpose of life in the Territory of Hawaii and the City and County of Honolulu to blackguard those whom you don't like and give public exhibitions of how mean you can be, in doing it?

Is the alpha and omega of political activity in this city an attack on a candidate against whom one man or two men have a particular spite? Is the ideal of community life in Honolulu, the nasty, nagging breaking down of character?

Is a dog fight the chief end of man in this town, while important details of public business and the attitude of the people toward vital public questions are passed up for a more convenient season?

Is the City and County of Honolulu to have the unenviable record of going astray on the election of a Delegate to Congress who will voice the sentiment of the people on the protective tariff, so vital to the prosperity of these islands?

Is it the plan to elect an opposition Legislature to retard the business of the Territory and nag the executive administration with an array of foolish legislation and idle criticism?

Do the people intend to elect a "mixed" board of City and County Supervisors to handle the local affairs or, more properly, to maul-handle and mismanage the intimate business of this city?

Is it the purpose of the people, the intelligent voters, to do all this or any part of it—and to gain what end?

That the Republican candidate for City and County Attorney may be defeated? To satisfy the spite of a clique that has openly declared its intention to knife the Republican ticket? To defeat the ablest candidate in the field for this office? To remove from office the prosecuting officer who has received the voluntary recommendation of the three Circuit Judges before whom he has conducted the cases of the people?

Is that what the voters of this island intend to do on election day? Is this what the people consider their duty to their country, their homes, and their party?

Is that what the Men of this City and County are living for and intend to vote for?

It may be so, but we doubt it. There is no such indication in the ball of the voters thus far made. There will be no such return on election day.

Let YOUR BALLOT be a straight Republican vote for civic decency, business administration, and a higher community reputation than the enemies of the Republican party are playing for.

TAFT, THE MAN.

One of the most correct Presidential canvasses made during the early part of the month was that conducted by the Success magazine. This journal covers thoroughly every State of the Union, and the subscribers have been utilized as independent canvassing officers to obtain exact facts.

The result is that the magazine gives Mr. Taft 298 electoral votes and Bryan 161. This allows 24 votes in the Electoral College doubtful, as follows: Maryland 8, Nebraska 3, Montana 3, Colorado 3.

The most important feature is that should Bryan secure the doubtful States he would still fall short of the number necessary to elect him. Taft can lose New York and still win the election.

William H. Taft will be the next President of the United States.

Bring on Creelman and all the other notables. But kindly request him to not romance on the evil things he may hear, or magnify incidents to give his readers a thrill.

Mr. Marconi is with us again. If you hear strange and weird conversations in the street you may know that it is merely a wireless manifestation.—Yarmouth Register.

The Fire Whistle

(GOVERNOR FREAR)

"As I said in my speech at Ala Park, country comes first, party second, as a matter of course.

"This DOES NOT MEAN that PARTY should be IGNORED or that the VOTER should select from the DIFFERENT PARTIES the BEST MEN VIEWED AS INDIVIDUALS. "PARTIES ARE NECESSARY and DESIRABLE IN REPRESENTATIVE GOVERNMENT.

"Team work is essential to accomplish practical results. Accordingly in politics as well as business it is often necessary to select and vote for men who by working together can accomplish desired results even though they are not men who might be preferred as individuals.

"Of course, there may be men on the party ticket who should not be voted for either for the good of the country or party, but just where the line should be drawn is a matter for individual judgment."

There is no need of worrying when away from home and the fire whistle blows. If you have insured your property in one of our fire insurance companies. We are agents for Companies that paid their San Francisco losses in full.

LAND AND THE VOTERS

(By GEORGE FAIRCHILD)

From the Government records we find that there are 1,676,765 acres of Government land, and from other Government sources that there are 13,295 voters within the Territory. Were these lands free from leases to-morrow, the Democratic candidate for Delegate might give us each about 130 acres of land, and the land question would be a thing of the past.

Then those of us who were fortunate enough to get good land with water might go to work, while those who got the side hills, mountains, pahoehe, etc., might lay for Link with a club, or sit on the beach waiting for suckers to come and buy our gold bricks.

Naturally when this state of affairs confronted us we would all "holer" for a square deal and send some one before the division was made to find out how much good land there was, so that each of us might first have his share of the best land and water, leaving the other lands to go in the discard, and it is my purpose to tell those here this evening (with the help of such maps and books as I have), just how many acres there are which we know are good agricultural land.

There are 218,395 acres of land in the Territory devoted exclusively to the raising of cane. Of this 218,395 acres, 36,406 acres belong to the Government and are leased to corporations or individuals. Of course this must be (so far as we now know) the cream of the land, at least it is the land which the Democratic Delegate's followers believe they will receive should he be successful at the polls.

Let us see how much land they will get provided he is elected and is able to condemn, as he threatens, all existing cane land leases.

As it requires a majority vote of the Territory to elect him, and that means 6648 votes he would only be able to give the faithful but a little over five acres each, and were he compelled to give all the voters a square deal after the election we would each receive scarcely more than two and one-half acres of the land and water.

Supposing the voters on each island should divide the cane land upon that island amongst themselves, we would then have the following scheme of distribution:

Hawaii with 22,663 acres and 3,157 voters, each would receive about 7 acres.

Maul with 1508 acres and 2584 voters, each would receive about 1 3/4 acres.

Oahu with 3215 acres and 6448 voters, each would receive about 1/2 acre.

Kauai with 5020 acres and 1106 voters, each would receive about 9 acres.

From the foregoing we note that Kauai would still be entitled to its old nickname, the home of Baronial Lords, as its citizens would receive the largest amount of land. Hard to beat Kauai, is the reputation your able representatives in the past have earned for this tight little island.

Upon the island of Kauai there are 181,000 acres of Government land leased to private parties or corporations, and out of this area 9020 acres are in cane and probably not over 1000 in rice or other products. Possibly there are another 10,000 acres of agricultural land which might become available by the conservation and development of water. But to put homesteaders upon the greater portion of these lands without financial help, will result in another Molokai Hui proposition, where 200 and more natives own in community 2000 acres of land and find it a hardship to pay the yearly taxes. Of the various lands under lease on the island and but two have expired or will expire within ten years, namely: Kapaia and Kalaheo. Mr. McCandless says nothing has been done to put homesteaders upon these lands. The settlement at Kalaheo and the attempted Molokai settlement at Kapaia refute this statement, and I will now show upon these maps the lands in Kapaia which have been surveyed and will be shortly opened for settlement.

Undoubtedly there are many spots within the large leases which might be utilized for homes, and had those leases been made as those in the future will be, thanks to the new law introduced in Congress last session by our Republican Delegate, much more might be done on the island in the different districts than is possible at the present time.

A Republican Governor has succeeded in getting Mr. Garfield to interest himself in Hawaiian land matters with the result that Mr. Newell of the Reclamation Service arrived here this week to study the arid land problem as the first step in the solution of our land question.

Through his influence we may hope to secure appropriations, as Porto Rico has done, to the extent of \$3,000,000, for the development of the water resources for the dry lands upon which a new farming population may be settled in the future.

If the voter wants to keep control of the situation, he will not allow the occupant of the Land Office to be appointed except as now by the Governor with the approval of the local Legislature. And it is just as well not to trust Uncle Sam with the revenue of our lands, as we need them all in the conduct of our affairs. The loss of the duties and customs is sorely felt by the Territory, so much

so we should be loath to trust our pocketbook in the Federal vaults to which only Uncle Sam has the combination.

FOR THE STRAIGHT TICKET.

The enemies of the Republican party have announced that the "major" charges against Cathcart, through whom they have sought to bring about the defeat of the Republican ticket, have been put before the public, all that is to come after is of minor import.

The result of the "major" charges has been to make votes by the hundreds for Cathcart. The minor charges cannot estrange these votes. The further result has been to utterly disgust decent-thinking people with the depths of degradation to which the mouthpiece of slander and those associated with it have voluntarily gone in their campaign of malice. If Cathcart were as black as he were painted the people would still have a sense of shame that any community could have the record of dealing with the worst criminal that ever lived in the unjust and criminal manner characterizing the onslaught on the candidate for City and County Attorney.

The responsibility of the voter today is to use his ballot and his influence to offset the ticket-splitting and disloyalty to Republican candidates which the traitor crew have confessed and admittedly put in motion. The plan has been to cast as strong a "revenge" vote as possible. This is the only hope the Democrats have of success.

Let your vote be straight Republican, that the final verdict may be a demonstration of the intelligence and honest purpose of the majority of the electorate in this City and County.
